ACKNOWLEDGEMENTS

I would like to express my gratitude to all those who contributed to the completion of this thesis. I am deeply indebted to my supervisor Dr. Jenjit Gasigijtamong who has given me precious advice and encouragement in conducting this research and writing the thesis. Without her help and guidance this thesis would have never been completed.

I want to thank Dr. Graeme Ritchie and Dr. Jonathan Leather for their helpful and insightful suggestions. I am grateful to Ajarn Kanyarat Euamamporn who has helped me through the statistical analysis.

I also would like to thank English Department Staff for their cooperation during the data collecting process. I am grateful to all the participants who gave me very useful data.

Lastly, my special thanks go to all the people in Friday Fellowship whose support and encouragement mean a lot to me.
