ACKNOWLEDGMENTS

I would like to thank my committee members: Dr. Kirk Person, Ajarn Douglas Inglis, Ajarn Mark Osborne, Dr. Sophana Srichampa and Dr. Kingkarn Thepkanjana for their help and suggestions for my thesis.

My special thanks go to Ajarn Douglas Inglis who spent time reading and re-reading my drafts. I could hardly make any progress on my thesis without his valuable and careful comments for the whole research, in general and for the Semantics analysis, in particular. I am also grateful for Ajarn Mark Osborne for his suggestions and guidances about the Anthropological Linguistics section in my thesis.

I really appreciate Ajarn Sophana Srichampa's help in finding an article that is an inspiration for my thesis and Ajarn Margaret Ukosokul's encouragements and ideas when she knew about my topic.

I especially thank Dr. Nguyễn Hà Thanh who introduced me to many good books about Vietnamese Linguistics and gave me valuable comments about my thesis from a mathematics perspective.

My thanks also go to my friends, Lê Tấn Dương and Phạm Thị Tuyết Minh, who all the time encouraged me to write about one of my favourite topics, my culture. Thank you very much for all your comments and help.

This thesis could not be done without help from different friends and family members who were willing to be my informants. I deeply appreciate your willingness to answer my questions no matter how busy you were.

As to my 'sisters', Linda, Christina, Naomi, my best friend, Chau, and friends in the Linguistics Department, I do not think I have enough words to thank you for your continuous encouragement, understanding and love.

Last but not least, I would like to express my gratitude to my mother. Thank you very much, Mom, for your indescribable love that you have given me over the years.
